59 responses

20. The overall quality of teaching-learning process in your institution is very good.

59 responses

Give three observation / suggestions to improve the overall teaching learning experience in your institution.

56 responses

NA

No suggestions

Excellent

Excellent teachers & supportive staff

1) All teachers are very cooperative and helpful (2) Cultural activities boost our hidden talent. (3) Online Power point presentation helps us to learn digital skills

Everything went well.

Strictly attendance, exam timetable on time,

Teachers know the best ...

More practical classes to learn about classroom teaching. 2.Method to handle students behavior and soft skills needs attention... 3.Use of ICT i assignment should be encouraged

The teacher used less of English language to teach than other languages. Agreed that they are trying to reach out to maximum number of children but for those (like me) whose other language are very bad would find it difficult to understand what the teacher is saying. Pls note that I haven't attended offline classes but I had observed this in online class.

All well

The experience was really good..No suggestions

Require more competent teachers. New technologies should be introduced. Time management should be followed completely.

Always be like this

Overall it was a very effective and excellent learning process for me

None

Offline more classes , more invitee lectures, co.pulsory yoga sessions

More practical experience

Cooperation and Support was great with all Staff members. Quite helpful

No need

Teachers should be thorough with all the external knowledge too

1. Assignment done should be discussed and marks should be assigned according to the work done not on the basis of your comfort level with students. 2. Assignment assessment is what needs to be improved

-

-

...

Teacher should motivate each and every student to participate in every function. Should give attention to every student

Offline teaching

Excellent teacher support and good time management

Integrate Technology and Interactive Tools, Enhance Faculty Development and Support

NILL

Assignments of the students should be discussed, there should be less of file submissions and more of practical lesson. Plan demos by the student teachers, more of experienced guest faculties should be invited to present difficult topics and subjects

Less wastage of paper in overall B.ed course.

Everything was great ! Had amazing memories here

Practice teaching should be done more.

Assignments where students can do some actual surveys and analysis.

Sometimes teacher became bias

Use technology mode for teaching

None

Nothing

.1.Promote Collaborative Learning Spaces 2 Encourage Experiential Learning Opportunities 3 Foster a Supportive Learning Community

Great experience

Three observations or suggestions to improve overall teaching  
1) Use better graphics and visual media to engage students well. ... 2) Try to reach every student and ask for their doubts. ... 3) Make teaching a two way interaction.

Internship program and more practical experience is required

Teachers always helped us to recognize diverse learning styles and adapt teaching methods accordingly to meet individual needs and also taught us how to relate course material with real life situations so that students can understand its relevance.

Please start M.ed section also.

Using Audio Visual method

Good efforts by the whole team/ good support/ well equipped

Some teachers are great, some not upto the mark..

Already the process is excellent.

1.Provide advance ICT technology 2. Awareness in parents' 3. Learning teaching programs/workshops for teachers.

Overall it was a great experience

There should be more followups regarding assignments and results of students so they understand where they are lacking in parts of academically. There should be projectors in each classroom so teaching and learning can be more effective.
