## The women's health & education program Report (Care foundation)

- Advocates for women's health issues and trains them to be aware and deals with it.
- The women's health education program addresses the health and wellness needs of women.
- Empowering underprivileged mothers to maximize their quality of life
- Gender differences play a role in manifestation of disease and health outcomes.

### Women often delay self-care as they attend to the care of their family or children.

Menstruation is one of the gods gift to the women, which give them power to become a mother. But thousands of people from around The world treat menstruation as a weird thing.

A lot of superstitious and myths of menstruation are behavioural restrictions that aside from being untrue, contribute to gender based taboos and discrimination.

These myths also make it harder for women to take about their period which leads to silence, shame and misconception. That is why is a responsible group of Indian society which is menstruation topic under women's health education program to aware women about it by telling them actual facts.

We form group of 13 to 14 students to play the skit on menstruation. At the start, we write script for the same. put some short stories to show the incidences face girls or women during menstruation period.

### REFLECTION

Being a part of the Women Health and Education Program, I learned a tremendous amount about the disparities within sex and gender health and how that then impacts the way we live and who we are. I decided to pursue the Women's Health Education Program, because I thought it would be a great way for me to continue to learn more about the issues that affected me as a woman, but also would allow me to explore my own interests in women's health.

As we know A woman's health literacy is an important element in her ability to engage in health promotion and prevention activities both for herself and her children. Health literacy level provides to women be able to notice health problems, contacts a health care at the right time, treatment and follows-up to fit the situation.

## Cleanliness drive

Gandhi Jayanti is a national festival celebrated in India to mark the birth anniversary of Mohandas Karamchand Gandhi born on October 2nd, 1869.

Dnyan Ganga Education Trust's College of Education, (B.Ed) celebrated Gandhi Jayanti by organising cleanliness drive in the college campus.

The event was held on September 28, 2019. The 'Cleanliness Drive' is a part of 'Swachh Bharat Abhiyan'. The cleanliness drive started from p.m. to 5:00 p.m.

'Swachh Bharat Abhiyan' is run by the government of India. The mission aims to achieve an 'open-defecation' free India by October 2nd, 2019 which would be the 150th anniversary of the birth of Mahatma Gandhi.

The students were given prior notice of the materials - rubber gloves, a mask and a garbage bag to be brought on the day of the cleanliness drive.

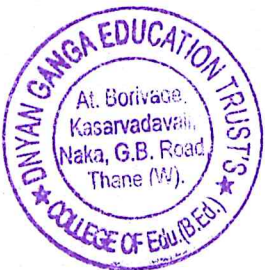

The students assembled in the college campus and picked up plastic bottles, wrappers, weeds etc.

All the waste was collected and disposed off. The campus looked cleaner and better.

The main goal of this mission is to make the people feel the responsibility of keeping the country clean.

I feel privileged to be a part of this drive which aims to transform our country. A clean environment also keeps most diseases away.

This is a great service towards our country as well as a tribute to the father of the nation Gandhiji, who always dream to make India cleaner and better.
