

The slide features a green background with a pattern of overlapping hexagons. A white rectangular area on the right side contains the text. At the top of this white area is a solid dark grey rectangle. A thick green horizontal line is positioned at the bottom of the white area.

Micro Teaching

Set Induction Skill

What is Set Induction Skill

- The micro teaching skill of the introduction is also known as skill of set induction .
- It is related to the beginning of the class teaching.
- If the beginning of the class teaching is effective then outcomes of the teaching learning process can be estimated very clearly.
- In this skill teacher is very active ,creative, the teacher has to grab the students attention in teaching learning process.

What is Set Induction Skill

- Teacher creates such an environment that they can start a lesson very effectively.
- For set induction teacher asks a set of questions to students related to the previous knowledge in order to come with the teaching topic.
- Questions are design in such a way that maximum number of students can respond to them.
- This makes students active in the class and their interest can be seen by the beginning of the class.
- Teacher use lots of tricks and tactics for the starting the lesson in the class.

Why Set Induction?

- ✓ To arrest or gain the attention of the learners and prepare them into a state of readiness.
- ✓ To motivate the learners and get them interested in the lesson.
- ✓ To get students focused or think on what is to be learned.
- ✓ To suggest an approach of the lesson.
